Remarks/Arguments

Applicant would like to thank the examiner for the thorough review of the present application. Replacement FIGS. 4A and 4B are attached to correctly show the elongate pin 53 as helpfully cited by the examiner. Claims 1, 9, and 16 have been amended to correct the informalities and to more particularly point out and distinctly claim the subject matter as helpfully cited by the examiner. Claim 2 has been canceled and re-written in independent form including all the limitations of the base claim.

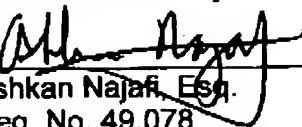

In view of these considerations, it is respectfully submitted that the rejection of the original claims should be considered as no longer tenable with respect to the currently amended independent claims 1, 9, and 16. All pending dependent claims necessarily include the recitations of their independent claims and therefore are also in condition for allowance.

Should the examiner consider necessary or desirable to make formal changes anywhere in the specification, claims and/or drawings, then it is respectfully asked that such changes be made by examiner's Amendment, if the examiner feels this would facilitate passage of the case to issuance. Alternatively, should the examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned attorney.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,
Law Office of Ashkan Najafi, P.A.

Sir:

The proposed drawing modifications are submitted as an attachment to the response to the Office Action mailed on 01/25/05. FIGS. 4A and 4B have been modified to show the "elongated pin 53" at the right end and left end of the "tire chock 60" respectively. Applicant respectfully requests such proposed drawing modifications to be accepted by the draftsperson.

The undersigned attorney respectfully submits a telephone interview to resolve any remaining issues.

Respectfully submitted,
